

# Older persons

The replacement for Alma House and Alma Close will be in the first phase of the redevelopment. This minimises the disruption for older residents and ensures that they will only make one move, straight into the new building.

The new accommodation is located close to the shops

Convenient access to the central open space

The older people retain their sense of community by being located together in a new building.

The new flats will be built to modern standards, offering greater accessibility and making them much easier and cheaper to heat.

The building will also include facilities such as a communal lounge and garden.

Typical 2 bed flat
